

TESTIMONIALS

Phat Sauce has had the privilege of working at many fantastic events with wonderful clients over the past few years. Here's just some of the lovely feedback that has been sent through to management.

"We hired Phat Sauce to play three sets of music at our wedding reception in 2017 at the Hamilton Room in City Hall.

They played a Jazz Set, Dance Set and a Pop Set. There were a number of professional musicians in the guest list and they all commented on the tight playing and flare they showed.

We regret not having photos of the band but we were too busy dancing! We can't recommend this band more highly."

Richard & Varna, Wedding

"We have booked Phat Sauce the last couple of years to perform at a number of Griffith University events, large or small, and they continue to impress with their performances. A talented group of musicians that know how to get the party started and continue the vibe throughout the night. They go above and beyond to make the event a success with the guest on the dance floor all night and everyone singing along.

Feedback from guests is always positive and they speak highly of the band's performance. Highly recommend Phat Sauce at any function/event, large or small, as they have great versatility to what you require for your event. Even is a pleasure to work with in the lead up to the event, nothing is too much of a trouble and very accommodating to ensure the night is successful."

Troy, Events Officer, Griffith University

"Thanks so much for a great night. I have had so many good comments about the music!"

Michelle, Private Function

"Thanks so much for playing for us, we really appreciate it. You put on an amazing show, I hope you all had fun yourselves."

Paige, UQ Union

"Thanks again for being a bunch of sweethearts, playing good music and being super flexible and understanding the whole way through! Looking forward to working with you again."

Jules, Sound Engineer, UQ Ball

"Heard these guys whilst working and they were simply amazing."

Sound Engineer, City Sounds
